

INTENDED USE

Mekano® CH100-2T3 is a triangular shaped, area efficient, versatile channel with excellent torsional resistance. Ideally suited for pipe supports.

INSTRUCTION FOR USE

Mekano® CH100-2T channels can be fixed together using M10 self locking bolts. The square holes ensures full mechanical locking in connections.

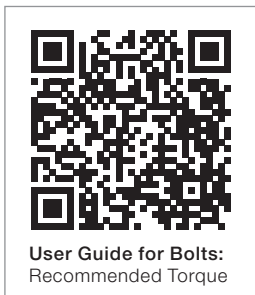

Channels can be fitted back to back without additional brackets.

CH100-2T3 fitted back to back. The square holes ensures full mechanical locking in each connection. The bolts can be fitted from both sides.

Typical multi discipline support with CH100-2T.

Typical multi discipline U-support. Also suitable as Cantilever, and U- and L-support.

Typical multi discipline Goalpost support.

Typical T-support.

CH100-2T3 as U-support with Gusset plates and carrying a pair of pipe clamps.
