

INTENDED USE

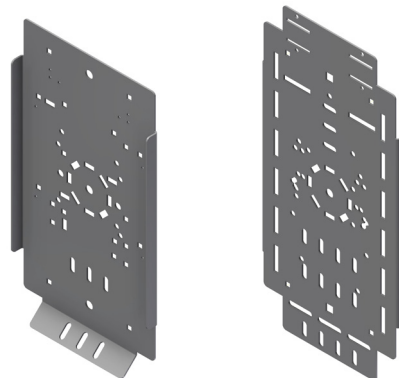

Equipment plates for electrical and instrumentation equipment, such as speakers, sensors, switches, detectors etc. The plates are universal in design and can be fitted directly to the side rails of OE ladders 200 mm wide or via brackets to any support. The plates can also be fixed below the rungs on any width of OE ladder.

Please contact us for equipment compatibility.

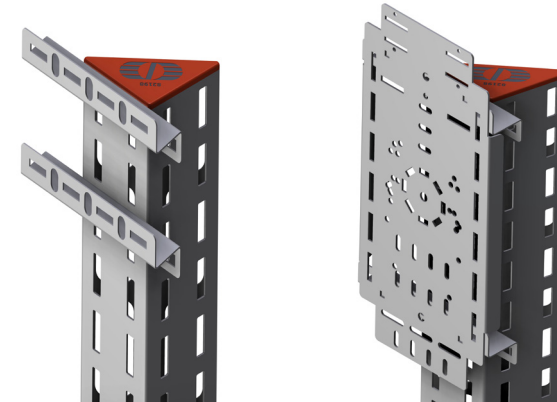

INSTRUCTION FOR USE

Fit either directly to OE ladder or use brackets as shown. Secure with self locking bolts.

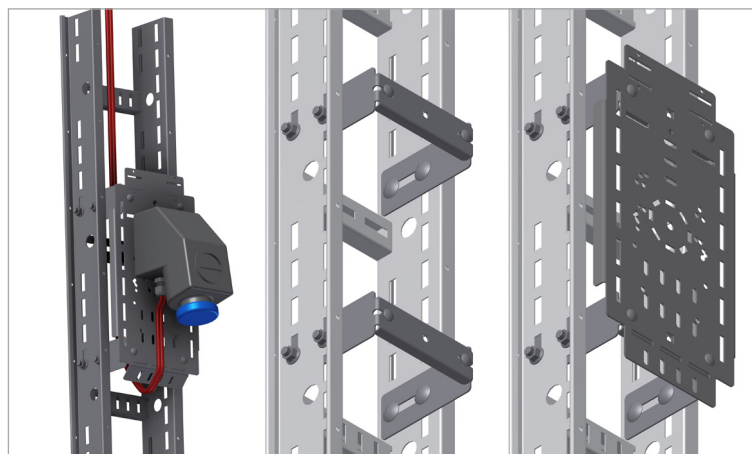

Typical standard Equipment plates.

Universal angle brackets used to fit Equipment plate.

Can be fitted directly to Mekano® support.

Fitted to OE ladder using OE light fitting brackets.

Optional canopy for basic protection.
