

## INTENDED USE

Standard recessed light fitting bracket for use between vertical handrail supports. Adjustable angle 0-90°. Typically used for 18 W light fittings.

## INSTRUCTION FOR USE

Attach the light armature to a Mekano® channel using self locking bolts.

Attach the lighting brackets to the Mekano® channel and fix to the vertical support using self locking bolts.

Adjust and tighten securely.

To avoid galvanic corrosion where different metals are in contact, fit PTFE tape around the handrail where the U-Bolts are to be fitted.
