Application

Sealing of cables, pipes and other conducts leading into switch cabinets, appliances and casings

Benefits

- Low inventory requirements: four different modules are needed to cover all diameters from 3 to 33 mm
- Versatile adapter modules for quick and easy accommodation of each cable / pipe diameter
- Elastic, fire resistant and halogen free elastomeric material
- Sealing of cables and pipes against dust and splash water (up to safety class IP-65)
- Complies with the requirements for indoor use (requirements of DIBt in combination with the NIK values from AgBB environment)
- Age tested
- Frame available in glass fibre and galvanized steel
- Frames available in two standard sizes (inner width of 60 mm, inner length of 150 or 210mm)
