

Application

Sealing of individual cables and pipes against fire, gas and water tightness in core holes or sleeved pipes.

Benefits

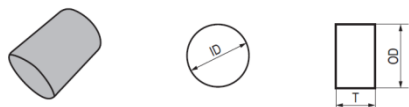

- Versatile adapter modules for quick and easy accommodation of each cable / pipe diameter
- Elastic, fire resistant and halogen free elastomeric material
- Complies with the requirements for indoor use (requirements of DIBt in combination with the NIK values from AgBB environment)
- Age tested
- Plug seals available with fittings and bolts made from galvanized steel or stainless steel
