

INTENDED USE

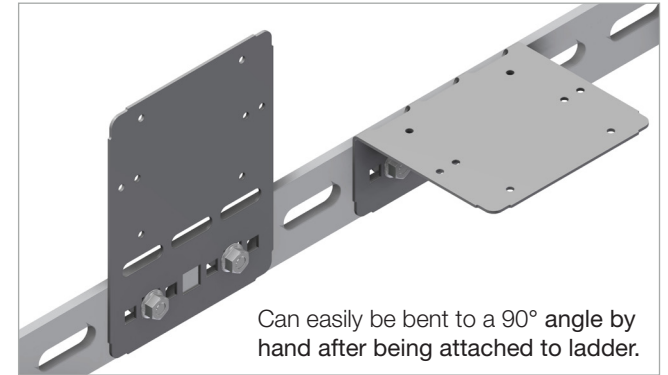

Socket Plate for bolting to RZE Cable Ladder. Can easily be formed to a 90° angle.

INSTRUCTION FOR USE

Assemble loosely with two M10 self locking bolts, adjust and tighten securely.

If a 90° angle is desired, bend the plate manually after it has been installed on the ladder.

Socket plate for RZE ladder.

Can easily be bent to a 90° angle by hand after being attached to ladder.
